Summary

I'm a frontend developer who builds fast, user-friendly websites and mobile apps that help businesses grow and connect with their audiences. I enjoy turning ideas into smooth, responsive digital experiences that work well across different devices and platforms. My work focuses on clean design, strong performance, and accessibility. I also stay up to date with the latest tools and technologies in web and mobile development, always looking for ways to improve my skills and deliver better results.

Experience

Frontend Dev *RALIOART*

Remote
Oct 2022 - Nov 23

- Built and maintained websites using HTML, CSS, Sass, Tailwindcss, and React.js
- Ensured websites were responsive and visually appealing.
- Collaborated with designers to implement layouts effectively.
- Optimize websites for improved performance.

Web & Mobile Dev *CUBEGROUP*

Hybrid
Feb 2024 - Present

- Developed responsive and user-friendly web interfaces using modern frontend technologies to ensure accessibility across all devices.
- Focused on delivering intuitive and smooth user experiences across both web and mobile platforms.
- Collaborated with designers and backend developers to come up with workflows and integration of new features.
- Built cross-platform mobile application using React Native, ensuring consistent performance and design across iOS and Android.
- Developed VARMS, a powerful affidavit processing system now live at the Abuja High Courts.

Technical Skills

Next.js *ReactJS* *React Native* *Expo* *Tailwindcss & Shadcn* *Sass*
